Packet Use and Benefits

How Discipline Packets Work

The Discipline Learning Packet System is a school-wide discipline curriculum that provides students with logical and constructive learning activities while they serve time in the office, the classroom, “time-out” room, as well as detention or suspension rooms.

Principals and teachers simply match a packet title with a violated rule. Lessons are reflective and prompt students to rethink their actions.

Principal Discipline Packets on CD provide principals with a teaching tool to address the more serious types of student misbehavior. There are approximately ten “Principal Packets” for each grade level (2–6). Packets are positive and reflective in nature and include goal-setting exercises. Lessons take students 25–30 minutes to complete.

Teacher Discipline Packets on CD provide teachers with ready-made student consequence that target common classroom rule infractions. There are eleven packets for each grade level (2–6). Each lesson ends with goal-setting exercises that prompts positive student behavior changes. Teacher Discipline Packets are designed to be a fifteen minute lesson.

Bully Packets on CD are organized into two sets—Volume A for grades 2–4 and Volume B for grades 4–6. This material is specifically designed to focus on the bullying aspect of a student’s misbehavior.
