

## Topic Specific Discipline Lessons for Rule Breakers

# Improve School Climate with Positive Behavior Supports from Advantage Press

Students learn why it's wrong for them to:

- Bully Others
- Fight
- Talk Back
- Push or Shove
- Swear
- ...and more

1. **Principal Discipline Packets on CD** help principals tackle difficult behavior problems such as: fighting, swearing, stealing and cheating. Forty-nine different reflective student lessons.
2. **Teacher Discipline Packets on CD** help the instructional staff handle such classroom rule violations as: talking, running, wasting time and out of seat. Fifty-seven different reflective student lessons.
3. **Bully Packets on CD** address twenty-four bullying behaviors such as: teasing, spreading rumors and pushing.

# Packet Use and Benefits

## How Discipline Packets Work

The Discipline Learning Packet System is a school-wide discipline curriculum that provides students with logical and constructive learning activities while they serve time in the office, the classroom, “time-out” room, as well as detention or suspension rooms.

Principals and teachers simply match a packet title with a violated rule. Lessons are reflective and prompt students to rethink their actions.

**Principal Discipline Packets on CD** provide principals with a teaching tool to address the more serious types of student misbehavior. There are approximately ten “Principal Packets” for each grade level (2–6). Packets are positive and reflective in nature and include goal-setting exercises. Lessons take students 25–30 minutes to complete.

**Teacher Discipline Packets on CD** provide teachers with ready-made student consequences that target common classroom rule infractions. There are eleven packets for each grade level (2–6). Each lesson ends with goal-setting exercises that prompt positive student behavior changes. Teacher Discipline Packets are designed to be a 15 minute lesson.

**Bully Packets on CD** are organized into two sets—Volume A for grades 2–4 and Volume B for grades 4–6. This material is specifically designed to focus on the bullying aspect of a student’s misbehavior.

View sample packets at: [www.advantagepress.com](http://www.advantagepress.com)

## Program Benefits

1. All students will face the same consequences for the same offenses.
2. Students will no longer associate wasting time or doing homework with being disciplined.
3. Discipline will be fair, consistent and related to the misbehavior.
4. Packets provide talking points to conference with the wrongdoer about his/her actions.
5. Lessons reinforce reading and writing skills.
6. Completed packets provide needed documentation.
7. Packets prompt students to make positive changes.

CDs work with both PC and Macintosh® computers. Files can be modified.

# Physical Education and Nutrition Programs

## P.E. Activity Packets (on CD)

The Elementary P.E. Activity Program consists of 42 lessons for use with K–6 physical education classes when the regular P.E. teacher is absent. These well-organized activity packets are an excellent resource for the substitute P.E. teacher.

Lessons or activities are organized by simplicity so even new and inexperienced subs can teach meaningful P.E. lessons.

Regular P.E. staff may also enjoy choosing lessons that add to the depth and breadth of their existing physical education curriculum. Each activity includes information on the equipment required, how to play, and variations of play—complete lessons ready for implementation.

## The Healthy Food of the Week Program (on CD)

Healthy Food of the Week (HFOW) is a nutrition program designed by Blue Ribbon Award Winning P.E. teachers. It has been tried and tested in a number of diverse school settings. It encourages students, parents and the school community to make healthy food choices a part of their daily routine. Each week a specific healthy food item is featured by the classroom teacher. Students learn the short- and long-term benefits of healthy eating. Research has shown that students who eat right behave better and achieve more.

### HFOW Program highlights:

- 36 “featured” food items— one each week of the school year
- Worksheets to go home with each student
- Nutrition lesson plans
- Nutrition activities
- Sample letters to parents
- Resources and research on each food item
- Just minutes per day can influence a lifetime
- Completely modifiable. Can be turned into a 4-week program, 9-week program or 18-week program based upon teacher/student needs.
